Bay City, Mich., July 10.—Captain Luther Beckwith, in charge of the ruined cities of Osceda and Au Sable and other fire-devastated territory, has received a telegram from the Minnesota Red Cross Society, advising him that the society had sent State, Treasurer Sleeper \$2,500 for the fire relief fund. This is the first aid received from outside the State, and, according to the telegram, is sent in remembrance of the fact that several years ago when Minnesota suffered heavy losses by forest fires Michigan was the first State to send aid to Minnesota.

The great duty of the newspaper man, he said, is to work for more possibilities, more health and more happiness for the people.

"In the great conficts of public opinion for better things," said the speaker, "newspapers are a power for good or for evil, in proportion to the backbone or the 'jelly' they show for public welfare.

good or for evil, in proportion to the 'backbone' or the 'jelly' they show for public welfare.

"The newspaper that panders to unwholesome public thought is a deserter in the face of high public duty, and the one that puts censcience above the counting room cash register builds mightily for warger blessings to civilization, both here and hereafter."

He denounced the policy of newspapers which blindly support the candidates of their party, whether or not the candidates are worthy of public confidence and trust.

"Tell the truth and fear no man," he said, "is the only safe guide to editorial success in shaping the destiny of our country. And when we do this, the golden age of just law enactment, bad law abolishment, and wholesome law enforcement will make ours a mightler and happier people."

Only one session was on to-day's program. After attending to business this forenoon, the delegates devoted the remainder of the day to a boat ride down the river to Lake Erle, with a stop on the way to watch the work of deepening, the new Livingston channel through the Lime Kiln crossing.

Albany, N. Y., July 19.—Hope of a revival of horse racing in New York State was aroused to-day when the Gittins bill, imaking the present autitrack gambling law less drastle as to its provisions of liability for directors of racing associations, passed the Senate, receiving exactly the twenty-six Votes necessary.
